

Context Sensitive Solutions The Kinder, Gentler Road

A Better Future
Balanced Solutions

A Very Smart Man

“Our problems cannot be solved with the same level of thinking that created them.”

What is CSS ?

UDOT CSS Definition

Context Sensitive Solutions (CSS) is a philosophy that guides UDOT wherein safe transportation solutions are planned, designed, constructed, and maintained in harmony with the community and the environment.

Why seek CSS ?

It is the right thing to do

”Context Sensitive Solutions is more than an initiative, it is a fundamental change in the way we do business.”

John Njord,

UDOT Executive Director & 2004 AASHTO President
