

A man with dark hair, wearing a bright yellow sleeveless athletic shirt and grey shorts, is captured in a running motion. He is looking towards the camera with a neutral expression. The background is a soft-focus outdoor scene with green trees and a bright sky, suggesting a park or a natural setting. The lighting is bright and natural, indicating it's daytime.

Measuring Health: an exercise in flexibility

**Sara Schooley
Oregon Public Health Institute**

Meet your neighbor

1. Name
2. Hometown
3. Profession/Organization
4. How does your work impact health

Social Determinants of Health

The social determinants of health are the conditions (social and environmental) where people live, work, and play.

Health Impact Assessments

the steps*

- 
1. Screening
 2. Scoping
 3. Assessment & Recommendations
 4. Reporting
 5. Monitoring

*per Human Impact Partners - <http://www.humanimpact.org/>

Flexibility

Case Studies in Transportation

- **Lake Oswego Transit Project (OPHI)**
 - Measuring: Air Quality, Physical Activity, Safety, and Access

Case Studies in Transportation

- **Clark County Bicycle and Pedestrian Master Plan (Clark County Public Health)**

- Measured: socioeconomic impacts, physical activity potential, food access
