DEAR FRIENDS,

Welcome! The Puget Sound Region is honored to host the 19th annual Rail~Volution conference.

Rail~Volution truly signifies the core values we hold dear in our region – sustainability, smart growth, health, quality of life and great transit!

Puget Sound will experience tremendous growth by 2030 as 1.2 million more residents are anticipated to call this unique region home. We are preparing for this growth with a strategic growth management plan that drives density into urban growth centers and guides smart investments in transportation. In addition to popular bus and commuter rail services, the region is on track to benefit from a light rail system that will stretch more than 50 miles within the next decade thanks to an $18 billion transit initiative adopted by voters in 2008. Construction is also underway on a $3.1 billion project to replace Seattle's shoreline viaduct with a tunnel, and a $4.1 billion project to replace one of the region's trademark floating bridges

And our economy continues to thrive with world-class companies and institutions like Boeing, Microsoft, Amazon, Expedia, Starbucks, the University of Washington and the Fred Hutchison Cancer Research Center, and an array of biotech firms that are creating jobs, trade and opportunity.

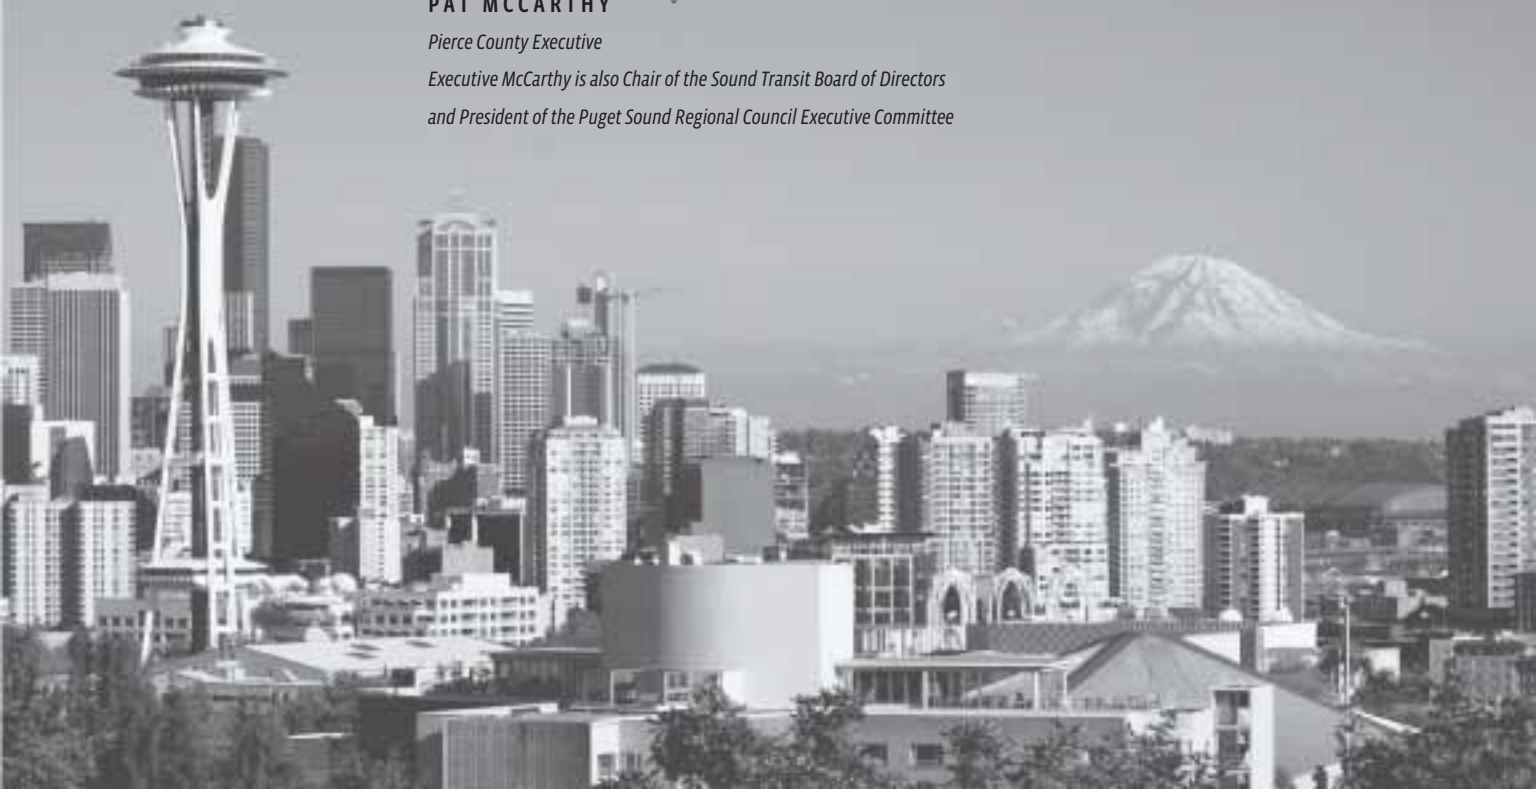
Come to Seattle and see first-hand how the Puget Sound region is embracing an economy of innovation. Discover the region's plans to accommodate growth while balancing economic goals with sustainability, quality of life, neighborhood and community values.

Sincerely,

PAT MCCARTHY

Pierce County Executive

Executive McCarthy is also Chair of the Sound Transit Board of Directors and President of the Puget Sound Regional Council Executive Committee



about the CONFERENCE

Everything you need to begin to explore Rail~Volution 2013

REGISTRATION HOURS

Saturday, October 19
3:00 pm – 6:00 pm

Sunday, October 20
7:00 am – 6:00 pm

Monday, October 21
7:00 am - 6:00 pm

Tuesday, October 22
7:00 am - 6:00 pm

Wednesday, October 23
7:00 am - 12:00 pm

Registration

Please check in at the Rail~Volution registration desk to receive your materials and badge. Badges are required at all sessions, receptions and networking events. The registration area is located in the Grand Level. The regional and transit information booth, 2014 conference table and more information about our mobile workshops are also available in that area.

Plenary Sessions

Rail~Volution 2013 features three plenary sessions that address issues affecting the future of livable communities. All of us come together in one place for presentations that promise to inspire and provoke new thinking. Find out more about each of these dynamic keynote sessions in the Schedule of Events.

Workshop Sessions

Rail~Volution 2013 provides more than 80 workshops that address nearly every aspect of building livable communities with transit. These workshops feature thought-provoking policy overviews as well as specific hands-on strategies that can be used and applied in your own community. To make it easy to attend several workshops, sessions are scheduled in 90-minute time slots during the three days. Check the At-a-Glance section on pages 10-13 of the program to plan your schedule.

Mobile Workshops

This year's conference offers 21 mobile workshops that provide hands-on, real-world learning about livability issues throughout the region. Check out the complete list of mobile morkshops on pages 54-57. Each requires preregistration and an additional fee. Visit the mobile workshop information table in the conference registration area, where self-guided tour information is also available.

Special Events

Several sessions, including the Pecha Kucha Slam, idea exchange sessions and lunchtime opportunities, provide important chances for networking, deep dives into key issues, and much more. Don't miss these unique occasions. See what other special happenings are in store in your Schedule of Events.

Trade Show

During the conference, visit the Trade Show located in the Grand Ballroom III on the Grand Level. Visit booths and displays from 14 companies. Join us in this area throughout the conference for continental breakfasts, coffee and refreshment breaks, boxed lunch pickup and for the special Trade Show Reception.

Tabletop Displays

Partners and affiliates of Rail~Volution will have tabletop displays on the Grand Level. Visit with representatives of these organizations during trade show hours.

Speaker Prep Room

Located on the San Juan Level in the Whidbey room, the speaker prep area will be available Monday, Tuesday and Wednesday for speakers and presenters to preview PowerPoint presentations.

Message Center

For your convenience, a message board will be located in the conference registration area on the Grand Level.

Hotel Accessibility

All venues for Rail~Volution are accessible, with signs for ramps and accessible elevators. For additional assistance, check with the conference registration desk.

Scholarship Programs

Rail~Volution
National Scholarship

This scholarship represents an important way to support community activists and to honor long-time Rail~Volution supporter Julie Hoover, a leader in the areas of sustainability and public involvement. Rail~Volution's National Scholarship Fund thanks the Rockefeller Foundation and other donors, for their generous contributions to this year's funding. Thanks to their generosity, 36 community activists and students from around the country are able to attend this year's conference. Please consider making a tax-deductible contribution to the fund. Contributions will be used to support scholarships for future years.

Seattle Regional Scholarship

Scholarships for Rail~Volution 2013 were made possible by the generous support of the Puget Sound Local Host Committee. These scholarships enable more than 58 community advocates, students and nonprofit representatives to attend the conference.

Bookstore

Elliott Bay Book Company will have new publications for sale in the conference registration area (Grand Level). Stop by and review the most current books in urban planning, livability, architecture, climate change, transportation, community development and Washington history. www.elliottbaybookcompany.com.

Continuing Education Credits

Rail~Volution is an AICP Certified Maintenance (CM) provider for the American Planning Association's AICP CM Program and an LA CES provider for the American Society of Landscape Architects. All conference events accredited by the individual membership organizations will be reflected using this notation: **AICP CM 1.5, LA CES HSW 1.5**

If you have any questions or concerns with reporting credits, please contact the APA or ASLA directly. APA CM Customer Service Team: aicpcm@planning.org or 202.872.0611 or visit www.planning.org. ASLA LA CES Customer Service Team: laces@asla.org or visit www.asla.org or 202.898.2444.

TRADE SHOW HOURS

Monday, October 21

Continental Breakfast
7:00 am - 8:00 am

Coffee Break
9:30 am - 10:00 am

Boxed Lunch Pickup
11:30 am - 12:30 pm

Refreshment Break
3:30 pm - 4:00 pm

Tuesday, October 22

Continental Breakfast
7:00 am - 8:00 am

Coffee Break
9:30 am - 10:00 am

Boxed Lunch Pickup
11:30 am - 12:30 pm

Refreshment Break
3:30 pm - 4:00 pm

Trade Show Reception
5:30 pm - 7:00 pm

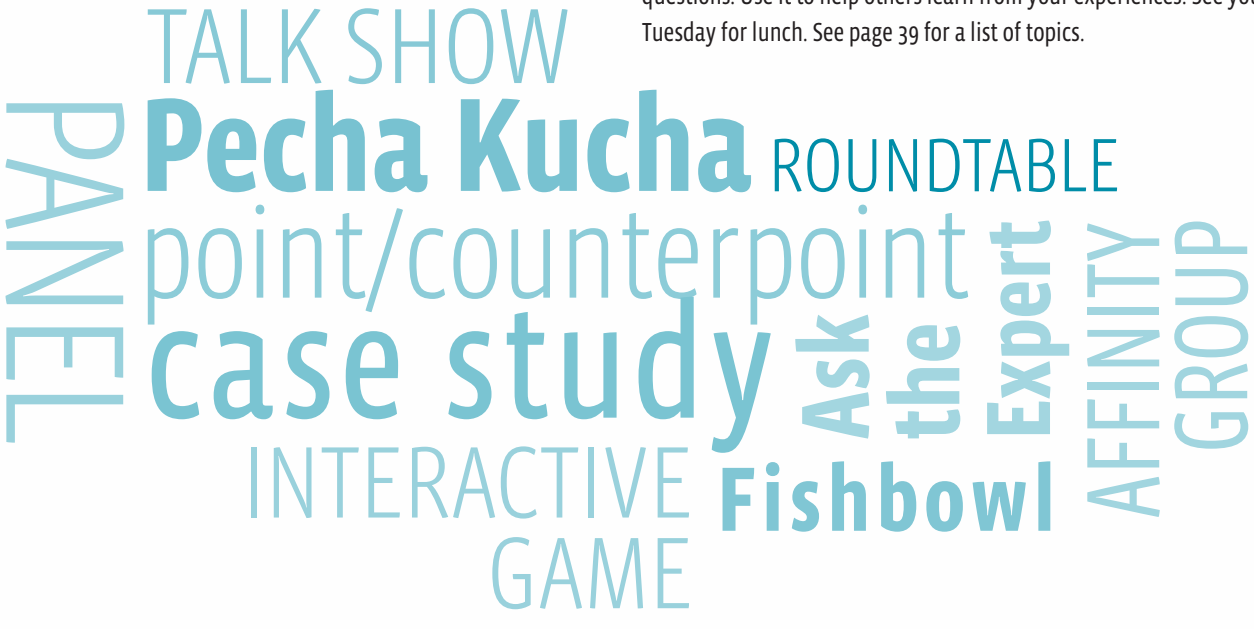
Design your own RAIL~VOLUTION CURRICULUM

Discover new ways to share insights, refine your ideas and expand your network.

Explore our new activities. Experiment along with us. Try out new session formats designed to elevate the conversation — and the networking opportunities. You demanded it. See how we've delivered. You'll still find the old favorites — workshops, mobile workshops, and traditional networking events. And we've brought back our innovations from last year: the Pecha Kucha Slam and idea exchanges. For a technological twist, you can download our Rail~Volution mobile application.

EXPLORE

Don't just learn something new — discover a new way to learn. Fresh formats + old favorites.



Workshops These 90-minute sessions cover a wide variety of important topics. Panels, talk shows, roundtables, fish bowls, affinity groups, ask-the-expert, case studies and interactive games — mix it up with different kinds of sessions throughout your day.

Mobile Workshops Experience a wide range of topics, on the streets, in these events across the region. Walk, pedal, ride and tour for an up-close education in developing livable communities in the Puget Sound region. See pages 54-57 for this year's mobile workshops.

Networking Events Argue, discuss, share and learn at networking events throughout the conference. You told us they are important to you: We responded with an interesting variety of events.

Idea Exchanges After introducing them at last year's conference, we've given our idea exchange format a big facelift. The topics are based on your suggestions during registration. The facilitators are New Rail~Volutionaries and seasoned experts in the subject areas, but they won't be the focus of these interactive get-togethers. You'll be driving the discussion. So check out the niche topics, grab a boxed lunch and get ready for some good conversation. Use it to network. Use it to ask questions. Use it to help others learn from your experiences. See you on Tuesday for lunch. See page 39 for a list of topics.

WORKSHOP THEMES

Whether you're new to the livability community, a seasoned practitioner or somewhere in between, Rail~Volution has a series of experiences especially for you. Mix and match more than 80 workshops to fit your passion and perspective.

Fundamental These core workshops about building livable communities with transit are a must for first-time attendees. For those of you who want to ground your understanding of unfamiliar or emerging issues, or strengthen your knowledge about core transit and livability concepts, they're essential. Featuring original examples, they cover a spectrum of topics: principles of finance, design guidelines, station area planning, effective advocacy, community engagement, integrated transportation, public-private partnerships and more.

Intermediate These in-depth workshops go far beyond the basics, delving deep into specialized topics: integrating transportation modes, station area planning, public-private partnerships, equitable development, community outreach, financing, communication strategies … The best and brightest highlight real-life examples, exploring them from many different perspectives.

Advanced Our advanced sessions dig even deeper into the detailed analysis of specific topics. Take your professional expertise to a new level with concepts such as the implications of MAP-21; transit and imminent social changes; and regional funding in tough economic times. Hear from transit agency general managers and experienced developers as you gain an even greater understanding of TOD and livable communities.

GET THE RAIL~VOLUTION APP

Take your Rail~Volution experience to the next level with our first conference information smartphone application. Use this mobile app to access information about schedules, workshop descriptions, speakers, attendees and much more — right on your smartphone. Download RV2013SEA in your app store to bring all the latest Rail~Volution information right to your fingertips.

A Guide to Rail~Volution Workshops

Rail~Volution workshops span a wide range of themes. We address a variety of modes, disciplines and topics that dig deep into the implementation of building livable communities with transit. Whatever your interests, there's something relevant for you.

This year we've added an easy-to-understand visual guide to make it easier to recognize the workshops that meet your interests. Look for the primary mode, discipline, topic and level of expertise under each workshop description, on the Schedule of Events and in a handy master matrix on pages 6-9.

Mode	Discipline	Topic	LEVEL

the conference AT A GLANCE

Chart your course to more than 80 workshops and events.

See Schedule of Events for locations (pages 20–53).

Saturday, October 19

Exploring Vancouver's Urban Rail: Then and Now	**8:00 am** (10/19) – **4:30 pm** (10/20)
Registration Open	**3:00 pm–6:00 pm**
Sunset Cruise	**6:30 pm–9:30 pm**

Sunday, October 20

Registration Open	**7:00 am–6:00 pm**

Mobile Workshops

#1	Future of Flight: Boeing Everett Plant Tour	**8:00 am–12:00 pm**
#2	Bainbridge Island: TOD with PNW Style	**8:00 am–1:30 pm**
#3	Meet Seattle's [Growing] Streetcar Network	**9:00 am–12:00 pm**
#4	Voices and Visions from Seattle's Rainier Valley	**9:00 am–1:30 pm**
#5	Capitol Hill: An Urbanist's Paradise	**9:00 am–2:00 pm**
#6	Urban Conservation Meets Light Rail	**11:00 am–2:30 pm**
#7	Ride and Learn: Seattle's Bicycle Master Plan	**12:30 pm–4:00 pm**
#8	Surf and Turf: Water Taxi and BRT	**12:30 pm–5:00 pm**
#9	Art and Walkable Neighborhoods	**1:00 pm–4:00 pm**
#10	Seattle's Waterfront by Land, Sea and Sky	**1:00 pm–4:30 pm**

Project Development in a MAP-21 World (formerly New Starts Symposium)	**2:00 pm–5:00 pm**
Welcome Reception	**7:00 pm–9:00 pm**

Monday, October 21

Registration Open — **7:00 am–6:00 pm**

Continental Breakfast — **7:00 am–8:00 am**

Opening Plenary Session — **8:00 am–9:30 am**

Refreshment Break — **9:30 am–10:00 am**
Trade Show Area

Workshops — 10:00 am–11:30 am

- Building Community: Diversity, Equity, Strategy
- Measuring What Counts: Tools You Can Use to Evaluate Investments
- Historic Preservation at Transit Stations Goes Green
- Partnering to Transform Suburban Communities
- General Managers Roundtable: TOD and Partnerships — Is Value Capture the Answer?
- Mobility Hubs and Last-Mile Mobility
- Tough Choices: The Whens, Whats and Hows of Mega Projects
- International BRT
- Friends of Transit: Winners and The Rest

Rail~Volution 101: Introduction to Building Livable Communities with Transit — **10:00 am–12:00 pm**

Mobile Workshop

#11 South Lake Union: Rebirth of a Neighborhood — **10:00 am–12:30 pm**

Boxed Lunch Pickup — **11:30 am–12:30 pm**
Trade Show Area

Lunchtime Opportunities — **12:00 pm–1:30 pm**

- Rail~Volution: Raise the Bar, Raise the Roof
- TOD Managers Forum
- Streetfilms University: Adding Punch and Pizzazz to Your Video Production
- NAPTA Meeting
- Community Streetcar Coalition Meeting
- Doing it Now for the Future: Where New Rail~Volutionaries Meet
- Green Station Design
- Bike Share Programs: Get Specific with Metrics

Mobile Workshops

#12 Destination East Link — **12:30 pm–5:00 pm**

#13 Bike the Burke — **12:30 pm–5:00 pm**

#14 Downtown Tacoma Revitalization — **1:00 pm–6:00 pm**

Workshops — 2:00 pm–3:30 pm

- A View Through the Labor Lens: Supporting Regional Transit and TOD
- The Many Faces of Advocacy
- Equitable TOD: Filling the Financial Gap
- Regional Programs to Fund Livable Communities
- Transit Planning for All Levels: System, Corridor, Station
- Parking: How Much is Enough?
- Rail~Volution's Public Officials Learning Network Part 1. The Challenge of Public Leadership: Don't Stand Alone
- From the Private Sector: Investment in Transit and Community Revitalization
- Corridor Collaboration and Innovation: Don't Go It Alone

Developers Roundtable — **2:00 pm–5:00 pm**

Refreshment Break — **3:30 pm–4:00 pm**

Workshops — 4:00 pm–5:30 pm

- Economic Game Changers
- Old Corridors for New Green Purposes
- Transit CEO Panel on the Future of Transit
- Principles of Financing Development: Tools to Help
- Finding Your Way with Tough Crowds and Hard-to-Reach Communities
- Best Practices in Northwest TOD
- First Mile, Last Mile, Whatever It Takes: Nonmotorized Station Access
- MAP-21: Performance Measures: How Far (and Fast) to Push the Envelope

Tuesday, October 22

Registration Open 7:00 am–6:00 pm

Continental Breakfast 7:00 am–8:00 am

Plenary Session 8:00 am–9:30 am

Refreshment Break 9:30 am–10:00 am

Workshops 10:00 am–11:30 am

- Demographic-Driven Demand
- Design Matters
- Building Sustainable Communities One Local Purchase at a Time
- Repurposing Stations for TOD: Implementation Amidst Chaos
- Fill Your Dance Card: The Public Sector Role in TOD
- Financing TOD in a Down Market
- Media and Agencies: Making Interaction a Two-Way Street
- Aligning Outcomes: Successful Partnerships For Advocates and Agencies
- Great Spaces: The Public-Private Role Role in Designing Great Transit Centers
- Urban Circulators: The Key to Livable and Sustainable Corridors? **10:00 am–12:00 pm**

Mobile Workshop

#15 Transit Innovations: Double Tall and Swift BRT **10:00 am–2:00 pm**

Boxed Lunch Pickup 11:30 am–12:30 pm

Rail~Volution's Public Officials Learning Network Part 2. The Challenge of Public Leadership: My Network, Your Network 12:00 pm–1:30 pm

Idea Exchanges 12:00 pm–1:30 pm

- Transit Passes as Tools: A Nuts and Bolts Discussion
- HUD Grants: Share the Wisdom
- Don't Put Me on Hold! Teaching Your Public to Communicate
- High-Quality TOD Goes to Suburbia
- The Art of Innovation

Mobile Workshops

#16 Bicycle Capital of the Northwest: Redmond by Bike 12:30 pm–5:00 pm

#17 Light Rail Across the I-90 Floating Bridge? 1:00 pm–3:30 pm

#18 Planes and Trains 1:00 pm–5:00 pm

#19 Northgate: From America's First Mall to Urban Center Redevelopment Model 1:00 pm–5:00 pm

Workshops 2:00 pm–3:30 pm

- A Tale of Two Cities' Public-Private Partnerships: Equitable Development Along Transit Corridors
- Equity In Transit Planning
- What Can TOD Finance and Value Capture Really Do?
- From Station Area Plan to Implementation: How to Get Somewhere
- The Truth About Federal Funding
- Real Estate Development 101
- Transit and Imminent Social Change
- The End of Sprawl: Innovations from Real Estate Developers
- Complete Streets: Balancing User Needs
- Corridor Planning: Seattle's First Hill Streetcar

Refreshment Break 3:30 pm–4:00 pm

Workshops 4:00 pm–5:30 pm

- Quantifying the Health Impacts of Transportation Investments
- "lower-case" tod
- TOD and Retail: What's on Your List?
- Right-Sized Parking Strategies
- Transit and the Urban Realm
- Transit P3s: The Wave of the Future?
- Picking the Right Transit Mode
- Getting Beyond the Buzzword: New Rules of Thumb for TOD
- First- and Last-Mile Strategies: Essential Components of the Complete Trip
- HSR: Bringing Taiwan's Lessons Home to the US

Trade Show Reception 5:30 pm–7:00 pm

Pecha Kucha Slam 7:30 pm–9:30 pm

Wednesday, October 23

Registration Open — **7:00 am–12:00 pm**

Continental Breakfast — **7:00 am–8:00 am**

Mobile Workshop

#20 Bicycle Greenways: Community Values & Infrastructure — **7:30 am–11:00 am**

Workshops — **8:00 am–9:30 am**

- Off-the-Shelf Stories: Reclaiming Land and Reality
- Climate Change and Sustainability: From Policy to Practice
- ETOD: Creating and Preserving Employment Near Transit
- Online Engagement: Making the Web Work for You
- MAP-21 Implementation: Understanding the Changes

Mobile Workshop

#21 Union and King Street Stations: Transit Hub Transformed — **8:00 am–11:00 am**

Refreshment Break — **9:30 am–10:00 am**

Workshops — **10:00 am–11:30 am**

- Expanding Economic Opportunity Through Transit and TOD
- Joint Development: How Do You Recruit the Right Developer?
- Transit Agencies, Cities and TOD: Where Does the Buck Stop?
- Enough is Enough: A Balanced Approach to Parking
- Transit, TOD and Livability in Not-So-Large Cities: We Did It. So Can You.
- BRT Investment: The Development Response
- Corridor Livability Planning: Progress Reports

Plated Lunch Served in Plenary — **12:00 pm**

Plenary Session — **12:00 pm–1:30 pm**

Rail~Volution: Raise the Bar, Raise the Roof — **2:00 pm–3:30 pm**

Seattle: Shaping the New Frontier — **2:00 pm–5:00 pm**

- Building a Regional Equity Strategy Around Transportation
- Reality Show: The Real Issues and Challenges of TOD
- There's No TOD Without the T: Making Funding Sustainable

plenary SPEAKERS

Pathbreakers. Thought leaders. Trailblazers. Glimpse the future at three energizing plenary sessions.

JONI EARL

Chief Executive Officer, Sound Transit

Chair, Rail~Volution Executive Local Host Committee

Joni Earl is CEO of Sound Transit, the Puget Sound region's mass transit system. Under Joni's leadership, the agency built the 16-mile Link light rail between downtown Seattle and Sea-Tac Airport; Tacoma Link in downtown Tacoma; and transit centers, park-and-ride lots and HOV access lanes throughout the central Puget Sound region. In addition to light rail, the agency runs ST Express buses and Sounder commuter trains serving the region. In the coming decade, voter-approved projects will more than triple the Link light rail system with nearly 50 miles of service. Joni is a graduate of Harvard University's State and Local Government Executive Program. She holds an MBA from the University of Puget Sound and a bachelor's degree from Washington State University.

MICHAEL McGINN

Mayor, City of Seattle

Michael Patrick McGinn was elected mayor of Seattle in 2009. Previously, Mike was a partner at Seattle law firm Stokes Lawrence. He left the firm to found Great City, a nonprofit that brought together neighbors, environmentalists and business leaders advocating for smart and responsible urbanism. In 2007, Mike campaigned to defeat a roads and transit ballot measure. The following year he helped pass the Sound Transit ballot measure to expand light rail. He's served on several neighborhood and environmental advisory committees, as well as on boards for the Sierra Club. He earned his bachelor's degree in Economics from Williams College and his law degree from the University of Washington.

DOW CONSTANTINE

County Executive, King County, Washington

As King County Executive, Dow Constantine has forged partnerships to rebuild the South Park Bridge; protect the longest remaining undeveloped shoreline in King County; and secure funding to fix the Howard Hanson Dam and protect South County communities from flooding. Throughout his public service career, Dow has been an outspoken advocate for environmental protection, public transit and government reform. He is currently leading the charge to ensure stable funding for transit and for roads in all of King County's 39 cities. Dow previously served on the King County Council and in the Washington Senate and House. He has been a member of the Sound Transit Board of Directors since 2006. Dow is a three-time University of Washington alumnus.

EARL BLUMENAUER

Congressman, Third District, Oregon

Elected to the US House of Representatives in 1996, Congressman Blumenauer is Congress' chief spokesperson for Livable Communities. Visiting more than 200 communities across the country, he's worked with local governments, citizens and civic organizations to strengthen local efforts to manage growth, provide transportation options and foster sustainable economic growth. Congressman Blumenauer founded the Livable Communities Task Force, the Bicycle Caucus and several other caucuses. He is co-chair of the Passenger Rail Caucus and the Trails Caucus, and a member of the Open Spaces and Land Trust Caucus. In 1991, he founded Portland's Regional Rail Summit which evolved into the national Rail~Volution conference in 1995.

BEVERLY A. SCOTT, PHD

Chief Executive Officer/General Manager, Massachusetts Bay Transportation Authority

President, Board of Directors, Rail~Volution

Dr. Beverly A. Scott is responsible for managing the MBTA and overseeing the Commonwealth's 15 regional transit authorities and MassDOT's freight and passenger rail programs. Beverly's career includes senior leadership positions with some of the nation's largest public transit systems. She was the first female CEO/General Manager of the Metropolitan Atlanta Rapid Transit Authority (MARTA). Beverly was recently named a "Transportation Innovator of Change" by President Obama and the US Department of Transportation, and is vice chair of the National Infrastructure Advisory Council, a presidential appointment. She holds a doctorate in Political Science from Howard University, and a BA in Political Science from Fisk University.

PAT MCCARTHY

County Executive, Pierce County, Washington

Pat McCarthy is the Pierce County Executive. Her priorities include improving the region's transportation systems; retaining businesses and attracting new ones; making county government more efficient and transparent; and planning for livable communities with safe streets, quality parks, clean air and a stable infrastructure. She is excited about opportunities for Pierce County, including planning for the 2015 US Open golf championships at Chambers Bay, which will produce a huge economic benefit for the entire region. Pat has been in public service nearly all her adult life. She started out as an advocate for rape victims and later served on the Tacoma School Board and as county auditor. Pat has lived in Tacoma since 1975. She earned her BA at the University of Washington, Tacoma.

PETER M. ROGOFF

Administrator, Federal Transit Administration, US Department of Transportation

Since his confirmation in 2009, Peter M. Rogoff has led the FTA through a period of historic challenges and process improvements. Most recently, the FTA effectively responded to the worst transit disaster in US history as a result of Hurricane Sandy. Administrator Rogoff led efforts to streamline FTA processes and policies, including New Starts, and presided over the transition to MAP-21. Under his lead, the FTA signed more capital construction agreements for transit projects than in any other two-year period. Early in his tenure, Administrator Rogoff successfully managed the disbursement of $8.4 billion in Recovery Act funds. Previously, Peter served on the staff of the Senate Appropriations Committee, and as the Democratic staff director of the Transportation Subcommittee.

JOHN J. MEDINA, PhD

Author, *Brain Rules*

Dr. John J. Medina is a developmental molecular biologist focused on the genes involved in human brain development and the genetics of psychiatric disorders. He has spent most of his professional life as a private research consultant, working primarily in the biotechnology and pharmaceutical industries on research related to mental health. John holds joint affiliate faculty appointments at the University of Washington School of Medicine, in its Department of Bioengineering, and at Seattle Pacific University, where he is director of the Brain Center for Applied Learning Research. He was the founding director of the Talaris Research Institute, a Seattle-based research center originally focused on how infants encode and process information at the cognitive, cellular and molecular levels.

DAN BARTHOLOMAY

Chief Executive Officer, Rail~Volution

As CEO, Dan Bartholomay promotes livability and leads efforts to expand Rail~Volution's capacity and impact. Prior to joining Rail~Volution, Dan was a leader in the public, nonprofit and philanthropic sectors. As a program director with the McKnight Foundation, he developed and implemented an interdisciplinary program spanning affordable housing, community development, transit, open space preservation and regional growth with a focus on livability and access. Most recently, Dan was commissioner of the Minnesota Housing Finance Agency where he focused the agency on continuous improvement, cross-sector partnership and community impact through housing investment. Dan holds an interdisciplinary BA in Economics, Anthropology and Political Science from Carleton College.

MICHAEL GOLDBERG

Chief Executive Officer, ActionMedia

Michael Goldberg founded ActionMedia in 1994 to help people working for positive social change say what they mean and make things happen. His clients include grassroots and nonprofit organizations and coalitions, governmental bodies and private foundations. He has conducted over a hundred focus groups with rural, suburban and urban voters in 20 states, learning how Americans think and talk about issues relating to their built and natural environments, including transportation, urban revitalization, housing, natural resources and planning at neighborhood and regional levels. Prior to forming ActionMedia, Michael worked as a print and broadcast reporter, public television producer, general manager of NPR affiliate Northern Community Radio, and consultant to the Corporation for Public Broadcasting.

JAY INSLEE

Governor, State of Washington

Governor Jay Inslee's top priority is growing Washington's innovative industries such as clean energy, IT and life sciences, and strengthening existing industries such as aerospace, agriculture, maritime and military. After serving in the state House of Representatives, Jay was elected to Congress twice — once in Eastern Washington, and again in 1998 after he and and his wife, Trudi, moved to Western Washington. In Congress, Jay was a leader on issues of clean energy and the environment. He co-wrote a book about the job-creating potential of the clean-tech industry. Jay graduated from the University of Washington with a degree in Economics before earning his law degree at Willamette University. Governor Inslee is a fifth-generation Washingtonian who grew up in the Seattle area.

SUSAN HAIGH

Chair, Metropolitan Council, Minneapolis/St. Paul, Minnesota

Susan Haigh is chair of the Metropolitan Council for the seven-county Twin Cities metro area. Previously, as a county commissioner, Susan served on the metro counties' Light Rail Joint Powers Board and was an early advocate of the Central Corridor LRT line. She is a leader on solid waste management issues. Chairman Haigh is also president and CEO of Twin Cities Habitat for Humanity, which has built more than 820 homes in 50 cities with the help of partner families, volunteers and donors. She holds a BA in Political Science from Macalester College and a law degree from William Mitchell College of Law.

PETER MCLAUGHLIN

Commissioner, Hennepin County, Minnesota

Peter McLaughlin is chair of both the Hennepin County Regional Railroad Authority and the Counties Transit Improvement Board. His work has shaped transportation across the state. Commissioner McLaughlin helped fund Minnesota's first light rail line and found dedicated funding to expand the region's light rail, commuter rail and BRT lines. He was instrumental in developing a county bicycle plan and gap funding for nonmotorized transportation options. He is a leading advocate for The Interchange in Minneapolis. Commissioner McLaughlin authored a resolution making Hennepin a founding member of Cool Counties and has won approval for many bold actions to combat crime. Peter served three terms in the Minnesota Legislature. He received his BA from Princeton University and his master's degree from the University of Minnesota.

CHARLES A. ZELLE

Commissioner, Minnesota Department of Transportation

In January 2013, Charles A. Zelle became commissioner of MnDOT, the agency charged with managing and maintaining the state's multimodal transportation system. Previously, Charlie was president and CEO of Jefferson Lines, an intercity bus company connecting rural communities in 13 heartland states. He remains chair of the Jefferson Lines Board of Directors. Charlie was a member of Minnesota's transportation finance advisory committee, as well as board member and chair of the policy committee of the American Bus Association. Born and raised in St. Paul, he earned a BA from Bates College and an MBA from Yale Management School.

Exploring Vancouver's Urban Rails: Then and Now

Experience Vancouver BC, a North American laboratory for 21st Century urban living. Enhance your Rail~Volution conference experience by participating in a hop-on-hop-off rails tour through Metro Vancouver! As one of the most livable regions in the world, Metro Vancouver boasts an excellent rapid transit system that has successfully married transportation and land use, creating numerous TOD developments across municipalities. In this two-day, round-trip tour departing from Seattle on Saturday morning, October 19, and returning Sunday afternoon, October 20, we will showcase the best of Metro Vancouver's rapid transit stations and TODs. *Cost $110.*

6:30 pm–9:30 pm

Meet on Grand Level near Conference Registration Desk

Sunset Cruise

Perched between Lake Washington and Puget Sound, Seattle's past, present and future fortunes are inextricably bound to all things maritime. Meet other attendees on this cruise around Seattle's iconic bodies of water. Take in the views while you learn how evolving waterways reshaped development. Disembark in one of Seattle's new, vibrant neighborhoods, just a few streetcar stops from your hotel. *Cost $30.*

Project Development in a MAP-21 World (formerly New Starts Symposium) **AICP CM 3**

MAP-21 brought many changes to the delivery requirements for transit projects: Transportation planning, environmental compliance, and the process for seeking funds through FTA's Capital Investment Grant program have all been transformed. What is the philosophy behind these legislative changes? What are some common myths — or realities? And, finally, how are project sponsors adjusting their work based on the changes? Pay attention at this fast-paced roundtable discussion about our new post-MAP-21 world.

MODERATOR: **Diana Mendes**, *AICP, Senior Vice President, Strategy Development, North America, AECOM, Arlington, Virginia*

MODERATOR: **Jeffrey F. Boothe**, *Partner, Holland & Knight; Chair, New Starts Working Group, Washington, DC*

Lucy Garliauskas, *Associate Administrator, Transportation Planning and Environment, Federal Transit Administration, US Department of Transportation, Washington, DC*

Richard Steinmann, *Special Assistant to the Administrator, Federal Transit Administration, US Department of Transportation, Washington, DC*

OPENING PLENARY

Welcome to Rail~Volution 2013

Puget Sound is undergoing its own "rail-volution" with plans to build out over 50 miles of light rail within the next decade, thanks to an $18 billion transit initiative adopted by voters in 2008. Hear how major rail investment is changing the land use and transportation landscape in the Puget Sound region. Then, hear what the local executive host committee has in store for you with a preview of Rail~Volution's Seattle activities.

Joni Earl, *Chief Executive Officer, Sound Transit; Chair, Rail~Volution Executive Local Host Committee, Seattle, Washington*

New Urbanism, Seattle Style

Seattle Mayor Mike McGinn will share his thoughts about Seattle's journey from a small logging town to becoming one of the most sustainable and urban cities in the nation. How does Seattle balance growth and the environment? How is Seattle doing density right? What key policies have shaped Seattle's economy and that iconic skyline? Hear from the mayor on these issues and his thoughts on Seattle's unique recipe for future success.

Mayor Michael McGinn, *City of Seattle, Washington*

Puget Sound's Innovation Economy

Puget Sound is home to more than 4.2 million people. It's also the birthplace of some of the most innovative companies in the world: Microsoft, Boeing, Amazon, Starbucks. And the region is full of great places. What sparks this innovation and continues to attract the best people and ideas? What are the key components of the Puget Sound region's success — and its unique challenges? How do people work together to tackle the toughest issues: growth management, housing, health care, education, transportation and economic development? Get answers from King County Executive Dow Constantine and hear how the region will continue to innovate through the next generation.

Dow Constantine, *County Executive, King County, Washington*

The State of the Rail~Volution Movement: What's Next?

In an era of partisanship and scarce resources, where cities are becoming increasingly sophisticated in their transportation and redevelopment goals, how can the federal government become a better partner in creating livable communities? Listen as Congressman Earl Blumenauer, founder of Rail~Volution and the premier spokesman for livable communities, explores this changing reality. Hear what this means in terms of infrastructure for today's dynamic communities: how we finance it; how we measure it with performance-based standards; and how we redefine the federal partnership for our century.

Congressman Earl Blumenauer, *3rd District, Oregon, United States Congress, Washington, DC*

Rail~Volution Ahead: All Aboard for Action and Engagement

Rail~Volution is more than an annual event. Rail~Volution is a diverse network of professionals and a year-round organization. After almost 20 years as a conference, Rail~Volution is poised for greater impact and ready to take on new challenges. Hear how Rail~Volution is being transformed into a catalyst for the movement to build livable communities with transit. How are we capitalizing on the strong network of professional expertise we've built over two decades? How can you get more involved?

Beverly A. Scott, *PhD, Chief Executive Officer/General Manager, Massachusetts Bay Transportation Authority; President, Board of Directors, Rail~Volution, Boston, Massachusetts*

Building Community: Diversity, Equity, Strategy AICP CM 1.5

Public transit functions best when it provides fair and equitable transportation opportunities to everyone. But lower income neighborhoods often lack the resources or the advocacy to be represented. Transforming our cities and regions into healthy, economically vibrant, socially equitable and environmentally sustainable places requires a multi-faceted approach. How can community-based organizations in low income areas take a stronger role in shaping TOD in their neighborhoods and still balance economic and social enrichment with displacement? Learn how grassroots social justice organizations are working to bring balance and diversity through policy changes that promote healthy, green and just development. Hear about tools and strategies that generate equitable development with a strong commitment to racial equality.

Measuring What Counts: Tools You Can Use to Evaluate Investments AICP CM 1.5

Public transit and multimodal investments can improve economic development, public health, mobility and community development equity. But how can we really know whether investments are meeting performance expectations in neighborhoods, along corridors, and in cities and regions? Here's your chance to explore measurement tools for different scales: an equitable TOD rating system developed by the Dukakis Center and the Center for Transit-Oriented Development; MPO best practices for flexing surface transportation funds to support broader outcomes; a pedestrian demand and safety model used to promote improved economic health, community character and social equity in Santa Monica; and the Sustainable Transportation Analysis Rating System (STARS) that measures the economic, energy and environmental impacts of transit projects (especially BRT).

General Manager's Roundtable: TOD and Partnerships — Is Value Capture the Answer? **AICP CM 1.5**

Reality check: Transit CEOs juggle a wide range of on-going issues, from daily operations to expanding — and funding — facilities and services. How do they do it? A predominant strategy pairs public-private partnerships with value capture from TOD investments. But can it really work? Can we really create livable communities alongside revenue streams? Is value capture the tool to do this? How does a CEO balance these often conflicting goals? What do local and federal partners really think about these efforts? Are developers willing to pay? Hear CEOs with real-life answers to these questions. (Don't expect to hear "yes" and "no.")

The Many Faces of Advocacy **AICP CM 1.5, LA CES HSW 1.5**

How do community-based organizations play a strong role in shaping TOD in their neighborhoods? How do they manage gentrification? Advocate for local values and priorities in the face of federal investment in transit? Actively participate in affordable housing development that contributes to community, creates jobs and makes a strong statement about environmental sustainability? And how do advocates do all of this at a local, state, regional or even federal level? Hear about these challenges: Advocating to the federal government for smart lending, not just big spending. Working to make station areas more people-oriented, instead of place-oriented. Using a regional grant program to support local land-use decisions. Helping existing residents benefit from changes in their community. Lessons learned at lots of levels.

Transit Planning for All Levels: System, Corridor, Station **AICP CM 1.5, LA CES HSW 1.5**

A single station. A string-of-pearls corridor. The network web. No matter how you look at it, every level of transit planning has a different set of requirements. Tension between those demands, and the need to balance them, necessitates a sequence of tradeoffs. Take one example: At the most local level — station planning — the desire is to slow down traffic to foster a sense of place for pedestrians. But at the corridor and network levels, transit times and maintaining transit flow are important to customers who want to arrive on time. What are the primary issues of different geographic scales? What perspectives can we take to understand them better? Hear lessons from all three levels, from projects spanning the country.

Transit Passes as Tools: A Nuts and Bolts Discussion

Communities and transit agencies use transit passes as a tool to support development and alternative transit. How can you use pricing structures to meet livability goals in different neighborhoods? What about employer use? Bulk transit passes? Long-term residential transit passes through zoning? How should passes be financed?

A Tale of Two Cities' Public-Private Partnerships: Equitable Development Along Transit Corridors **AICP CM 1.5, LA CES HSW 1.5**

Denver and Seattle: Two cities where local government and nonprofits combine efforts to create long-term equitable development opportunities along emerging transit corridors. Learn how public-private partnerships are creating financial tools to address the issues of gentrification and displacement. In Seattle, partners create affordable TOD using site acquisition. They use value capture tools to address the effects of increasing property values on low income residents and businesses. In Denver, partners developed the country's first TOD fund, as well as Denver Shared Spaces, affordable, nonprofit shared business space to complement affordable housing. Hear the real-life tales from key players.

MODERATOR: **Angie Malpiede**, *Secretary, Board of Directors, Regional Transportation District, Denver, Colorado*

Jon Clarke, *Senior Loan Officer, Enterprise Community Loan Fund, Seattle, Washington*

Aaron Miripol, *President, Urban Land Conservancy, Denver, Colorado*

MAP-21 Implementation: Understanding the Changes **AICP CM 1.5**

Moving Ahead for Progress in the 21st Century (MAP-21) introduced new safety provisions for the nation's rail transit systems, established a streamlined environmental review process for projects, and expanded project financing opportunities under the Transportation Infrastructure Finance and Innovation Act (TIFIA). Go deep into MAP-21's newest provisions and other major changes in this roundtable session: Growing interest in public-private partnerships means expansion under the TIFIA. Environmental streamlining provisions will shorten the project delivery process for both highways and transit. Performance measures and scenario planning will shape local decision-making regarding investments in future transportation projects. Finally, expanded rail safety provisions will introduce greater oversight into the operations of rail systems.

Transit Agencies, Cities and TOD: Where Does the Buck Stop? AICP CM 1.5

Who's responsible for what? It's a common question that never seems to have the same answer twice. There's a valid reason for that. Explore the wide range of roles transit agencies play in facilitating TOD, as well as the many roles and expectations of their city partners. Hear real-life stories that uncover the uniqueness of agencies and cities across the country. Explore the policy and political considerations for each type of organization.

MODERATOR: **David Knowles**, *Senior Transit Program Manager, CH2M Hill, Portland, Oregon*

Ryan Moore, *Senior Planner, City of Seattle, Washington*

Rachel Smith, *Senior Goverment Relations Officer, Sound Transit, Seattle, Washington*

Enough is Enough: A Balanced Approach to Parking AICP CM 1.5, LA CES HSW 1.5

Parking: It's the elephant in the room. We don't want to discuss it, but it's a key consideration in developing station areas. But is parking really a necessity? Or merely a transitional use, while walking and biking evolve? Why don't we build more — or less? Can the urban parking concept succeed in a suburban area? How much parking is really necessary? What's the best way to reduce single occupancy vehicle use? There is an inherent conflict between developing destinations and developing parking as an access point for transit use. This clash is bound to make a lively, fast-paced roundtable discussion. Bring your point of view and be ready to back it up.

MODERATOR: **Robin Blair**, *Director of Planning, Operations and Parking, Metro, Los Angeles, California*

Transit, TOD and Livability in Not-So-Large Cities: We Did It. So Can You **AICP CM 1.5, LA CES HSW 1.5**

Oklahoma City. Kansas City. Little Rock. Mid-America. Inland. Flyover. Whatever you call them, these not-so-populated cities are making downtowns more livable with transit and streetcars. Traditionally modest investors in transit, they're forming community alliances and partnerships, despite a strong car culture. With the Oklahoma City METRO quickly emerging in a recession-resistant economy, the state is a noteworthy laboratory for livability and smart, healthy growth. Kansas City and Little Rock have similar success stories. How did all three play catch-up with transit, especially streetcars? How did they put health impact and economic analysis to work? With a mix of conservatives and progressives favoring opportunity, fairness, enterprise, common sense and civility, their stories are relevant to cities across the continent.

MODERATOR: **Marsha J. Kaiser**, *AICP, Managing Principal, PB's PlaceMaking Group, Washington, DC*

Thomas Gerend, *Assistant Director of Transportation, Mid-America Regional Council Metropolitan Planning Organization, Kansas City, Missouri*

Larry Hopper, *Principal Planner, Metro Transit, COTPA, Oklahoma City, Oklahoma*

Corridor Livability Planning: Progress Reports **AICP CM 1.5, LA CES HSW 1.5**

Corridor-level station area planning is becoming more prevalent in our urban areas as local jurisdictions learn the value of collaboration. In many instances, the DOT/HUD/EPA Sustainable Communities grant program has provided the impetus for corridor planning. In other cases, regions have taken the initiative on their own. Hear important lessons learned during major corridor-level undertakings as agencies share honest stories of challenges and opportunities in this roundtable discussion. Expect short updates about corridor planning in Seattle, South Florida, Phoenix, New Jersey/New York, Maryland and other regions. Bring your questions and be ready for a lively debate!

Stories That Connect: Turn Up the Power with a Clear Message

Talk about VMTs, TODs and policies and nobody listens. Tell a clear story, from the perspective of your audience, and your listeners connect to the story, make it their own, and repeat it to others. As popular enthusiasm for transit grows, we have the chance to shape debate on transportation infrastructure for the next generations. But we have to speak directly, to each audience's values and experiences. Twitter, flyers, public hearings – each is an opportunity to define changes in our community in terms of shared aspirations and mutual benefits. Disciplined, research-based communication uses stories to broaden support and move individual supporters to action. Where there is opposition, the same approach puts that opposition on the defensive. See and hear how advocates and community leaders are telling clear, consistent stories to mobilize their audiences around the US.

Michael Goldberg, *Chief Executive Officer, ActionMedia, Minneapolis, Minnesota*

Washington State's Innovation Economy

The power of innovation will fuel the next wave of job growth in Washington state. Hear from Governor Jay Inslee about his plans for job growth in seven industry clusters: aerospace, life sciences, military, agriculture, information technology, clean energy technology and the maritime trades. Learn about his support for clean energy solutions and his work to collaborate with leaders from business, labor, environmental and local government communities to support a comprehensive transportation package to ensure Washington's long-term economic vitality.

Governor Jay Inslee, *Olympia, Washington*

Building a Regional Equity Strategy Around Transportation AICP CM 3

When it comes to equitable development, communities need to be at the center of the conversation. Only then can they remain strong and share the benefits of sustainable communities. The Federal Partnership for Sustainable Communities has fostered regional conversations about equitable development throughout the country. What lessons have they learned? What can local and national grantees, not to mention nonprofit funders and public health practitioners, tell us about transportation projects that hold equity as a core value and outcome. What silos have they shattered? What kinds of creative outreach and public engagement techniques can they share? Learn from their experiences to bring equitable development back to your community.

Capture the Pacific Northwest sense of adventure, innovation and sustainability.

MOBILE WORKSHOPS

Puget Sound. Mt. Rainier and the Cascades. The Olympic Mountains. Surrounded by natural beauty, you'll want to head outside and explore. Travel by cycle or light rail, foot or ferry, double-decker bus or BRT — even via Ferris wheel! Go local and ignore the weather. No business suits. No heels. All you need is a layer of Gore-Tex and your spirit of adventure. Our unique mobile workshops tour the region, highlighting local projects relevant to all.

Online registration is required at **www.railvolution.org**. Attendees are limited to two mobile workshops each. These workshops require additional fees. Tours may overlap with other workshops and conference sessions, so please select carefully.

SUNDAY WORKSHOPS

1 Future of Flight: Boeing Everett Plant Tour

Sunday, October 20, 8:00 am – 12:00 pm

Boeing employs more than 85,000 people in Washington state. Travel by bus, 30 miles north, to Boeing's Everett campus, where 747s, 767s, 777s and 787s are assembled in the world's largest building. Hear from company representatives and city and transit planners about balancing service — including buses and 90+ van pools — with the needs of this major manufacturing center, while meeting regional livable community goals. Tour the factory and visit the Future of Flight Aviation Center to learn about this important regional industry. *Cost: $60.*

2 Bainbridge Island: TOD with PNW Style

Sunday, October 20, 8:30 am – 1:30 pm

Bainbridge Island used to mean get-away summer cabins and strawberry fields. Today about half the population commutes by ferry each day. Hear from area leaders how this rural island community is committed to green building and infrastructure, affordable housing and a vibrant arts and local food scene. After your 35-minute ferry ride across Puget Sound (with views of Seattle, the Cascade and Olympic Mountains, and possibly Orca whales) enjoy a walking tour of the transit-oriented community. Stay for a no-host lunch or head back on an earlier ferry.

Walking: 3 easy miles. Cost: $45.

AICP CM 4 LA CES HSW 4

3 Meet Seattle's [Growing] Streetcar Network

Sunday, October 20, 9:00 am - 12:00 pm

Meet Seattle's streetcars! Begin with a short ride on the South Lake Union Streetcar, then tour the nearly-completed First Hill Streetcar line. Follow the alignment via shuttle and on foot as it transitions from high-density Capitol Hill into First Hill, a 24-hour employment center of hospitals and universities. Continue the tour along the future extension of the line through the International District and into the historic Pioneer Square area. Learn about design innovations, placemaking features and associated redevelopment opportunities along the alignment.

Cost: $45. **AICP CM 3 LA CES HSW 3**

4 Voices and Visions from Seattle's Rainier Valley

Sunday, October 20, 9:00 am – 1:30 pm

Visit the stations of the Central Link light rail in Southeast Seattle's Rainier Valley and see some of the most ethnically and economically diverse neighborhoods in the country. Discuss equitable transit-oriented development: how to build light rail and plan station areas that sustain the existing businesses, character and communities. Hear from the Seattle Housing Authority's New Holly and Rainier Vista neighborhoods; the Community Development Fund community partnership; the Community Cornerstones project (funded by a HUD Sustainable Communities grant); and project veterans from the City of Seattle and Sound Transit.

Cost: $45, includes lunch. **AICP CM 4**

MOBILE WORKSHOP TRANSPORTATION MODES

Light Rail · Walk · Bicycle · Bus · Commuter Rail · Ferry · Streetcar · Shuttle · Water Taxi

5 Capitol Hill: An Urbanist's Paradise

Sunday, October 20, 9:00 am – 2:00 pm

Take the bus to Capitol Hill, a diverse community that will soon host a light rail station, a streetcar line, a cycle track, additional local bus routes and many transit-oriented development projects — including the redevelopment of property above the underground light rail station. Hear how representatives from the community, City and transit agencies shape transit-oriented development. Lunch at the Broadway Farmers Market or a café, then join local leaders on a one-hour walking tour of recent transit, redevelopment and revitalization projects. Option: Go early with the locals for a latte on the Hill! *Cost: $45, lunch not included.* **AICP CM 4 LA CES HSW 4**

6 Urban Conservation Meets Light Rail

Sunday, October 20, 11:00 am – 2:30 pm

The future East Link light rail extension will connect Seattle and communities eastward across Lake Washington and will run along the 320-acre Mercer Slough Nature Park. Tour Bellevue's LEED Gold certified Mercer Slough Environmental Education Center (MSEEC) and hear about some of the low-impact design elements used to build the MSEEC, as well as how local jurisdictions are designing transit facilities with sustainable features. Enjoy a lunch presentation about the East Link and, weather permitting, walk the rail alignment along the edge of Mercer Slough. *Cost: $45, includes lunch.* **AICP CM 3 LA CES HSW 3**

7 Ride and Learn: Seattle's Bicycle Master Plan

Sunday, October 20, 12:30 pm - 4:00 pm

Join City staff and bicyclist community leaders for a cycle tour of Seattle's bicycle infrastructure, including two new amenities: cycle tracks and neighborhood greenways. Seattle has significantly updated its Bicycle Master Plan and is implementing a Bike Share program. Hear about key issues and challenges addressed as Seattle builds a world-class bicycle network in a topography- and weather-challenged environment. *Bicycling: 8 moderate miles Cost: $60.*

AICP CM 3.5 LA CES HSW 3.5

8 Surf and Turf: Water Taxi and BRT

Sunday, October 20, 12:30 pm – 5:00 pm

Start in downtown Seattle on King County's arterial BRT system, RapidRide. Travel the C Line to West Seattle's "Triangle" to visit recently completed multifamily developments and hear about the Urban Land Instititute Northwest's BRTOD research project. Stop by the Fauntleroy Ferry dock for a presentation by Washington State Ferries, then move on to an easy bike ride along the Alki Waterfront. End with a ride on the West Seattle Water Taxi with an onboard discussion en route to the downtown Seattle waterfront. *Distance: 2 easy bicycling miles. Cost: $45.* **AICP CM 4.5**

9 Art and Walkable Neighborhoods

Sunday, October 20, 1:00 pm – 4:00 pm

Experience ST*art*, Sound Transit's art program. Ride the Link light rail system from Westlake Station to Sea-Tac Airport. We'll stop along the way to see how integrating art into the system fosters a sense of place, community pride and walkability. Learn about working with artists: commissioning artwork, hiring, incorporating artwork and ideas into transportation projects. Features artwork by Christian Moeller, Roger Shimomura, Dan Corson, and Norie Sato, to name a few. Wear walking shoes! *Cost: $45.*

AICP CM 3 LA CES HSW 3

10 Seattle's Waterfront by Land, Sea and Sky

Sunday, October 20, 1:00 pm – 4:30 pm + Ferris Wheel!

Explore Seattle's central waterfront by land, sea and sky! On foot: Learn how the world's largest tunnel-boring machine is transforming the city. By boat: aboard a harbor cruise boat, imagine how the waterfront will change with the removal of the Alaskan Way Viaduct and replacement of the Elliott Bay Seawall. From above: Ride the Great Wheel (a 175-foot enclosed Ferris wheel) and look down on a future urban street that will accommodate all modes of travel and connect with the city's transportation system. *Cost: $60.* **AICP CM 3.5**

MONDAY WORKSHOPS

11 South Lake Union: Rebirth of a Neighborhood

Monday, October 21, 10:00 am – 12:30 pm

Urban homes. Biotech research. Amazon headquarters. Once an industrial warehouse district, Seattle's South Lake Union neighborhood is a key part of the city's growth management plan. A new streetcar connection to downtown, a world-renowned cancer research center and a private developer assembling land were all key assets. Still, stakeholders grappled with change. Explore how affordable and workforce housing, increased density and historic preservation, as well as public-private partnerships, played important roles in this transition. *Cost: $45.* **AICP CM 2.5 LA CES HSW 2.5**

12 Destination East Link

Monday, October 21, 12:30 pm – 5:00 pm

The 14-mile East Link light rail extension across Lake Washington will connect downtown Seattle, Mercer Island, Bellevue and Redmond. The project faced many challenges: alignment, cost sharing, land use regulation, integration into city and developer TOD plans, and transit needs of some 35,000 Microsoft employees. Take a bus tour of the alignment and a walking tour of downtown Bellevue. Hear from Sound Transit, the Cities of Redmond and Bellevue, TOD developers and Microsoft about the process, challenges, compromises and paths to successful resolution. *Cost: $45.* **AICP CM 4.5**

13 Bike the Burke

Monday, October 21, 12:30 pm – 5:00 pm

Bike the Burke Gilman Trail to see how area organizations promote transit, walking and bicycling. First stop: the University of Washington's safe and convenient campus connections; covered and secure bicycle parking; mixed-use housing and commercial buildings; and future light rail station and pedestrian/bicycle bridge. Second stop: Seattle Children's Hospital, whose work includes constructing cycle tracks, neighborhood greenways and safer crossings at major arterials. Third stop: a separated two-way cycle track connecting the Burke Gilman Trail to Magnuson Park, a major employment and recreation center.

Bicycling: 10 (occasionally strenuous) miles. Cost: $60. **AICP CM 4.5**

14 Downtown Tacoma Revitalization

Monday, October 21, 1:00 pm – 6:00 pm

Streetcars and an interurban rail line once connected downtown Tacoma to surrounding neighborhoods and the region. Today, Sound Transit is reinvesting in rail within the downtown core and reconnecting Tacoma by regional commuter rail and express bus. See for yourself! Ride the Regional Express bus 50 minutes south to Tacoma. Tour public and private projects in downtown. Return via Sounder Commuter Rail. Hear the successes and challenges of this revitalization from the perspectives of city planners, the Tacoma Chamber, and the University of Washington, Tacoma. *Walking: includes stairs. Cost: $45.* **AICP CM 5 LA CES HSW 5**

TUESDAY WORKSHOPS

15 Transit Innovations: Double Tall and Swift BRT

Tuesday, October 22, 10:00 am – 2:00 pm

Ride a Double Tall, one of Community Transit's double-decker buses, to Everett Station, a multimodal transportation center and civic facility 45 minutes north of Seattle. Tour the station's local, regional and interstate modal services, as well as local employment services, community space and city offices. Over lunch, learn about Swift Bus Rapid Transit (BRT). This joint partnership project between Community Transit and Everett Transit is shaping land use and TOD development. Ride the Swift to experience this service and return to Seattle by Double Tall.

Cost: $45, includes lunch. **AICP CM 3.5**

16 Bicycle Capital of the Northwest: Redmond by Bike

Tuesday, October 22, 12:30 pm – 5:00 pm

From bicycle races a century ago to high-profile bicycle and pedestrian improvements and a commitment to compact, sustainable development — Redmond has earned its nickname. Redmond combines urban centers, residential neighborhoods, major employment areas, and a network of transit and nonmotorized connections. Tour public-private non-motorized improvements on the Microsoft campus; the 2012 National Public Works Project of the Year; the urban rail-to-trail Redmond Central Connector; and transit-oriented development in downtown Redmond. *Two 30-minute bus rides. 6 easy bicycling miles. One great downhill coast. Cost $60.* **AICP CM 4.5**

17 Light Rail Across the I-90 Floating Bridge?

Tuesday, October 22, 1:00 pm – 3:30 pm

Thirty years ago, area representatives partnered to build a highway across Lake Washington with a bike/pedestrian path and a separate roadway for high-capacity transit to connect Seattle, Mercer Island and Bellevue — someday in the future. "Someday" is now. Visit a classroom where engineers address the challenges of installing track and running trains across a 5,811-foot-long floating bridge. Learn about yaw, pitch and pontoons. Then walk half a mile through a tunnel to an overlook of the entire bridge.

Covered, even terrain, so don't worry about rain! Cost: $45. **AICP CM 2.5**

18 Planes and Trains

Tuesday, October 22, 1:00 pm – 5:00 pm

Take light rail to a major destination: Seattle-Tacoma International Airport. Join Sea-Tac officials to go behind the scenes of the nation's 15th largest airport. Operated by the Port of Seattle, Sea-Tac (SEA, KSEA) served more than 33 million passengers in 2012. With a regional economic impact of more than $13.2 billion in business revenue, Sea-Tac generates more than 161,000 jobs (89,902 direct jobs) representing more than $2.2 billion in direct earnings and $412.4 million in state and local taxes. Twenty-eight airlines serve 76 non-stop domestic destinations and 22 international cities.

Cost: $45. **AICP CM 4**

19 Northgate: From America's First Mall to Urban Center Redevelopment Model

Tuesday, October 22, 1:00 pm – 5:00 pm

Fifty years ago, Northgate was a model for how we "should" live: shopping malls, automobiles and parking lots. With light rail arriving in 2021, Northgate is recreating itself into a complete, compact and connected community. Ride a Metro bus to Northgate. From your vantage point on top of a shared-use parking garage, learn about the history and future of Northgate. Next, enjoy an hour-long walking tour with partner agencies and advocates who are working together to transform Northgate into a desirable transit-oriented neighborhood.

Walking: 1.5 miles. Cost: $45. **AICP CM 4 LA CES HSW 4**

WEDNESDAY WORKSHOPS

20 Bicycle Greenways: Community Values & Infrastructure

Wednesday, October 23, 7:30 am – 11:00 am

Explore South Seattle. Ride light rail to Beacon Hill station, located in the continent's deepest mined glacial till tunnel. Hear from community leaders instrumental in developing greenways and bicycle infrastructure and from Sound Transit about bike parking at transit centers. Next, bike the Chief Sealth Trail — a light rail mitigation project — through the Rainier Valley. You'll see redeveloped WWII-era housing, hear about New Holly's community catalyzing efforts and visit one of Seattle's largest P-Patch gardens. Return via light rail from the Rainier Beach station.

Bicycling: 6 miles, with some mildly strenuous hills. Cost: $60. **AICP CM 3.5**

21 Union and King Street Stations: Transit Hub Transformed

Wednesday, October 23, 8:00 am – 11:00 am

Seattle's historic Union and King Street stations have been transformed into a city and regional transit hub that's catalyzing redevelopment in the surrounding neighborhoods. Pioneer Square and the Chinatown/International District are nationally registered historic districts. SODO is home to major league stadiums and industry. Hear from project proponents and neighborhood stakeholders about integrating multiple transit modes within a constrained, built environment and plans for revitalizing the surrounding neighborhoods while keeping their culture and character.

Cost: $45. **AICP CM 3**

Rail-Volution SEATTLE 2013

NEW FRONTIERS

Notes

Where can you…

Pedal along the country's best urban bike path?

Experience arts and dining in two unique cities with one light-rail ticket?

Shop 'til you drop at a mall the size of 78 football fields?

Admire the gorgeous fall colors along a scenic byway?

Where? Rail~Volution 2014
Sept. 21-24 in Minneapolis-St. Paul

19th Avenue Transit Study, San Francisco, CA

Cocktail Reception

Please join us for drinks and appetizers!

When: Monday, October 21, 2013 5-7 PM

Location: The Westin Seattle – Presidential Suite

The Federal Reserve Bank of San Francisco
is proud to support Rail~Volution and to co-sponsor the
Western Region Equitable TOD Symposium with Rail~Volution,
the U.S. Department of Housing and Urban Development's Office of
Sustainable Housing and Communities, Enterprise Community Partners,
the Low Income Investment Fund, and Reconnecting America.

Collectively, we seek to support model equitable TOD throughout the Federal Reserve's Twelfth District Western region.

SIEMENS

America's City Solution

Siemens' answers for mobility help people and business reconnect with their city and one another.

Cities across the United States are growing fast, which has brought new challenges like how to move people and attract business in a way that is also good for the environment. That is why cities are choosing to work with Siemens, where more than 800 Americans focus on designing and building energy-efficient rail vehicles that can help people reach their destination quickly, comfortably and safely.

Siemens complete solutions for mobility are helping change how cities grow and how their citizens move through them. Because mobility is more than just transportation, it helps build sustainable cities. Somewhere in America, our team of more than 60,000 employees spends every day creating answers that will last for years to come.
