Race to Mobility Future

Auto manufacturers are also transforming, with expanded business model in mobility service space, which include things like autonomous fleets, car sharing services and other vehicle ownership alternatives.
What is Mobility on Demand?

A **VISION** of integrated and connected multi-modal network of **safe**, **affordable**, and **reliable** transportation options that are **available to all**.
FTA MOD Sandbox Program promotes transit readiness

Demonstration Program to Explore MOD Models

• **Empowers** transit agencies to explore innovative business models and partnerships to deliver high-quality, seamless and equitable mobility options

• **Informs** the USDOT and communities on how to approach MOD and structure future MOD policies, and support FTA grantees

Less is MORE?
THANK YOU!
